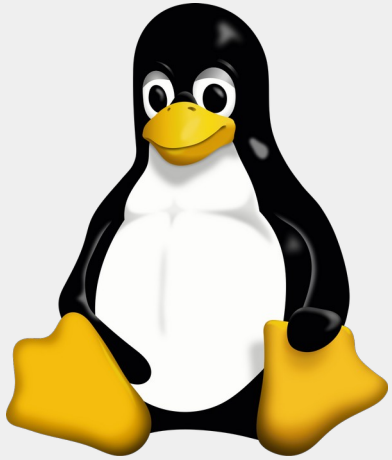
Linux kernel
0.01



FACTS:

- Android (used by 70% of smartphones worldwide) is built on the Linux kernel.
- There are indeed over 600 Linux distributions, according to sources like DistroWatch.
- Top 1 million web servers approximately 96% run on Linux.
- Elon musk’s SpaceX used Linux to complete 65 missions.
- 90% of Hollywood special effects rely on Linux.
- Most cloud platforms (AWS, Azure, GCP) use Linux for back-end services.
